COVER

08 September 2016, Munich

Dear Human Resources Manager,

please accept my resume as an expressed interest in exploring the possibilities of joining your department and organization in a **web/software developer** position.

I'm a Front-End and Back-End Developer with over 14 years of professional experience in the IT and Internet industry.

My educational background includes a bachelor degree in Communication and Media Studies and a master degree in Production cultures, publishing and multimedia.

I was the CEO of the EgoRego Internet Company, based in Rome (Italy), founded in 2007. We've made a reputation for planning successful communication strategies, coding rich Websites and Apps, increasing business through social media marketing.

I learned early on in my career that what motivates me is meeting deadlines. Setting and reaching deadlines gives me such a sense of accomplishment.

I am motivated by constant progress. I find it exciting to implement new ideas and see them through to fruition.

I believe in teamwork. Different team members contribute different perspectives and the synergy between team members can produce creative and productive results.

I'm comfortable working as a member of a team and independently. Some assignments require a great deal of independent work and research, some require a team effort.

My technical and managerial expertise includes:

- Front-End development (AngularJS, jQuery, node.js, CSS, HTML, ecc.)
- Back-End development (PHP, Laravel, CakePHP, Symfony)
- Web framework and libraries (Wordpress, Drupal)
- Software development (C#, WinForm/WPF)
- Database (MySQL, MSSql, PostgreSQL)
- API Integration (Social Network, Payment gateways, ecc.)
- SEO & SEM competencies
- Building and maintaining rich Websites and Web Applications
- Highly motivated self-starter
- Social media management
- 14 years experience in Software Development
- 7 years CEO of an Internet Company
- High experience in building business relationship

My work history has provided me a variety of business skills which allow me to relate to all levels of management, to a variety of business positions, and work successfully with a diversity of personalities, customers, and end-users.

I consider myself to be a results-oriented, dependable, and capable worker; who is not easily affected by job stress, and will be a strong asset to your department and organization in a variety of duties. I am certainly receptive to any company training and I am a fast learner in any on the job training situation, if required.

According to my research and past experience, plus the value I could bring to your organization, my salary expectations would fall in the range of €55.000 to €65.000 per year.

I look forward to a personal interview at your convenience.

Sincerely,
Raffaele Pizzari
